Senior UX / Experience Designer | Enterprise UX | User-Centered Design | Figma

UX / Experience Designer with 4.8 years of experience designing enterprise and marketing platforms using user-centered design principles. Skilled in end-to-end UX processes including product discovery, user research, interaction design, wireframing, prototyping, usability testing, and design delivery. Experienced collaborating with Product Managers, VP and Engineering teams in Agile environments to deliver scalable, accessible digital experiences. Passionate about solving complex enterprise problems, improving usability through data-driven design, and contributing to reusable design systems and component libraries.

Design Process: Discovery → Research → Ideation → Wireframing → Prototyping → Usability Testing → Design Delivery

---

PROFESSIONAL EXPERIENCE

HCLTech – Senior Designer (UI/UX)

July 2025 – Present | Chennai, India

- Ensured **100% cross-device responsiveness** across **desktop, tablet, and mobile breakpoints**, improving consistency across major browsers.
- Collaborated with UX designers, developers, and QA teams across Agile sprints, delivering **3 UI improvements per release cycle.**
- Conducted **UI validation and design QA** to ensure **pixel-perfect implementation** of Figma designs before production release.
- Improved overall design consistency and responsiveness by refining layout structures using HTML and CSS.

HCLTech – Senior Designer (UI/UX)

July 2022 – June 2025 | Chennai, India

- Designed and delivered **20+ responsive, accessible digital experiences** across marketing and enterprise platforms by applying **interaction design, information architecture, and UX best practices**, resulting in **15% increased user engagement**.
- Led heuristic evaluations, usability testing, and evaluative research to identify usability issues and translate insights into actionable product design improvements.
- Leveraged AI-assisted design workflows alongside Figma to accelerate wireframing, refine UX copy, and iterate interactive prototypes efficiently.

- Collaborated with **Product Management**, **VP**, Engineering, and cross-functional stakeholders to align UX solutions with product roadmap, customer workflows, and business objectives.
- Applied **inclusive design principles and accessibility standards (WCAG 2.1)** to create experiences usable by diverse audiences, including users relying on assistive technologies.
- Optimized digital assets and UI performance, reducing **page load time from 4.5s to 2.3s (~50%)**, enhancing overall user satisfaction.
- Participated in **Agile ceremonies, design sprints, and iterative feedback cycles**, using user insights and data to inform design decisions.
- Created user journeys, task flows, and interaction models to simplify complex enterprise workflows and improve user efficiency.
- Contributed to reusable UI components and design patterns to ensure consistency across platforms and support scalable design systems.
- Conducted generative and evaluative user research including stakeholder interviews, usability testing, and behavioral analysis to inform design decisions.
- Translated complex requirements into **intuitive user flows, wireframes, and high-fidelity UI designs**, ensuring seamless cross-browser and cross-device experiences.

HCLTech – UX Designer / UI Design & Testing Associate

Nov 2021 – June 2022 | Chennai, India

- Designed and styled **15+ UI screens** for internal enterprise applications using **HTML, CSS**, ensuring usability and visual consistency.
- Assisted in **user research activities**, competitive analysis, and behavior studies to inform UX decisions.
- Authored and executed **40+ test cases and usability checklists**, improving test coverage by **25%** and accelerating quality assurance cycles.
- Supported **accessibility compliance initiatives**, contributing to inclusive and user-centered digital experiences.
- Actively participated in **design critiques, storyboarding sessions, and brainstorming workshops** to refine interaction models and user journeys.

KEY PROJECTS

Dunhill – Luxury E-commerce Website (Salesforce Commerce Cloud)

- Implemented layouts using **SFCC Page Designer**, enabling faster content updates and reducing page build time by **~25%**.
- Identified and resolved **30+ UI inconsistencies and layout bugs**, improving visual consistency and usability across product pages.
- Contributed to improving **page responsiveness and layout stability**, reducing layout issues reported during testing by **~40%**.

LoanLogics Marketing Platform

- Designed responsive landing pages and UX components for an enterprise marketing platform, improving navigation clarity and conversion efficiency through information architecture and usability principles.
- Applied **information architecture, interaction design, and usability heuristics** to improve navigation and conversion.
- Collaborated with stakeholders to translate business goals into seamless customer experiences.

BD ICX Enterprise Application

- Translated UX wireframes into **high-fidelity, accessible HTML/CSS interfaces** optimized for crossbrowser performance.
- Conducted **usability testing and heuristic evaluations** to validate design decisions and improve user satisfaction.
- Ensured consistency across screens through reusable components and design standards.

SKILLS & EXPERTISE

UX & Experience Design

- Interaction Design, Information Architecture
- User Flows, User-Centered Design
- Design Systems & Component Libraries
- Accessibility (WCAG 2.1)
- Wireframing & Prototyping, UX Strategy

UX Research

- Usability Testing, Heuristic Evaluation
- User Interviews, Behavioral Analysis
- Stakeholder Interviews, Journey Mapping

Design & Prototyping Tools

- Figma, Adobe XD, Sketch, Photopea
- Concepts

Frontend & Collaboration

- HTML, CSS
- Agile / Scrum, Cross-functional Collaboration, Stakeholder Management
- Product Discovery & Design Handoff

EDUCATION

Master of Human Resource Management (HRM)
Anna University, Chennai | 2021 – 2023

Bachelor of Technology
Vel Tech Multitech, Chennai | 2017 – 2021

ADDITIONAL INFORMATION

- Languages: Tamil, English, Hindi
- Strong communicator with experience evangelizing UX processes and collaborating with global teams
- Open to relocation and hybrid roles in Mumbai, Bengaluru and Hyderabad
